Introduction to the "Grit Scale"
Grit- The ability to persevere; to overcome adversity; how well you face challenges.
12 question survey administered by Ms. Dunne which measures your grit
-Faculty has taken the grit survey; Dunne asks how our children would answer this survey. Struggle is part of the learning process, and you need to be able to overcome adversity and be resilient. Teachers are modeling this behavior for their students. Students do wordles everyday
-Word of the week: Encounter; Next week's word: Struggle
We are trying to prevent mental health issues in the future.
Parent Question: What can we do at home?
Tell your children how smart they are GETTING not how smart they are. Focus on effort and not the outcome. Make sure your feedback is accurate. Don't allow them to give up when things are tough. Let the kids struggle a little. Think about the vernacular we use when providing feedback to our children.
